Independent Auditor's Report

Board of Directors Harris County Municipal Utility District No. 278 Harris County, Texas

Opinions

We have audited the financial statements of the governmental activities and each major fund of Harris County Municipal Utility District No. 278 (the District), as of and for the year ended August 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of August 31, 2022, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance

Board of Directors Harris County Municipal Utility District No. 278 Page 2

and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Board of Directors Harris County Municipal Utility District No. 278 Page 3

Other Information

Management is responsible for the other information included in the basic financial statements. The other information comprises the schedules required by the Texas Commission on Environmental Quality as listed in the table of contents. Our opinions on the basic financial statements do not cover the other information, as we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

FORVIS, LLP

Management's Discussion and Analysis August 31, 2022

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to financial statements. This report also contains supplementary information required by the Governmental Accounting Standards Board and other information required by the District's state oversight agency, the Texas Commission on Environmental Quality (the Commission).

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, sanitary sewer and drainage services. Other activities, such as the provision of recreation facilities and solid waste collection, are minor activities and are not budgeted or accounted for as separate programs. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented on the left side of the statements, a column for adjustments is to the right of the fund financial statements and the government-wide financial statements are presented to the right side of the adjustments column. The following sections describe the measurement focus of the two types of statements and the significant differences in the information they provide.

Government-wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District. The District's government-wide financial statements include the statement of net position and statement of activities, which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the statement of net position is to attempt to report all of the assets, liabilities, and deferred inflows and outflows of resources of the District. The District reports all of its assets when it acquires or begins to maintain the assets and reports all of its liabilities when they are incurred.

The difference between the District's total assets, liabilities, and deferred inflows and outflows of resources is labeled as net position and this difference is similar to the total stockholders' equity presented by a commercial enterprise.

The purpose of the statement of activities is to present the revenues and expenses of the District. Again, the items presented on the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred by the District. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues are reported even when they may not be collected for several months or years after the end of the accounting period and expenses are recorded even though they may not have used cash during the current year.

Management's Discussion and Analysis (Continued) August 31, 2022

Although the statement of activities looks different from a commercial enterprise's statement of income, the financial statement is different only in format, not substance. Whereas the bottom line in a commercial enterprise is its net income, the District reports an amount described as change in net position, essentially the same thing.

Fund Financial Statements

Unlike government-wide financial statements, the focus of fund financial statements is directed to specific activities of the District rather than the District as a whole. Except for the general fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties or governmental statutes or regulations.

Governmental Funds

Governmental-fund financial statements consist of a balance sheet and a statement of revenues, expenditures and changes in fund balances and are prepared on an accounting basis that is significantly different from that used to prepare the government-wide financial statements.

In general, these financial statements have a short-term emphasis and, for the most part, measure and account for cash and other assets that can easily be converted into cash. For example, amounts reported on the balance sheet include items such as cash and receivables collectible within a very short period of time, but do not include capital assets such as land and water, sewer and drainage systems. Fund liabilities include amounts that are to be paid within a very short period after the end of the fiscal year. The difference between a fund's assets, liabilities, and deferred inflows and outflows of resources is labeled the fund balance and generally indicates the amount that can be used to finance the next fiscal year's activities. Likewise, the operating statement for governmental funds reports only those revenues and expenditures that were collected in cash or paid with cash, respectively, during the current period or very shortly after the end of the fiscal year.

Because the focus of the government-wide and fund financial statements is different, there are significant differences between the totals presented in these financial statements. For this reason, there is an analysis in the notes to financial statements that describes the adjustments to fund balances to arrive at net position presented in the governmental activities column on the statement of net position. Also, there is an analysis in the notes to financial statements that reconciles the total change in fund balances for all governmental funds to the change in net position, as reported in the governmental activities column in the statement of activities.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to a full understanding of the data found in the government-wide and fund financial statements.

Management's Discussion and Analysis (Continued) August 31, 2022

Financial Analysis of the District as a Whole

The District's overall financial position and activities for the past two years are summarized as follows, based on the information included in the government-wide financial statements.

Summary of Net Position

	 2022	2021
Current and other assets Capital assets	\$ 23,717,176 34,486,090	\$ 16,474,906 35,211,791
Total assets	 58,203,266	 51,686,697
Deferred outflows of resources	 1,192,808	 1,290,617
Total assets and deferred outflows of resources	\$ 59,396,074	\$ 52,977,314
Long-term liabilities Other liabilities	\$ 53,307,086 1,683,881	\$ 48,716,972 1,513,967
Total liabilities	54,990,967	 50,230,939
Net position: Net investment in capital assets Restricted Unrestricted	 (510,029) 3,741,332 1,173,804	(677,683) 4,111,815 (687,757)
Total net position	\$ 4,405,107	\$ 2,746,375

The total net position of the District increased by \$1,658,732, or about 60 percent. The majority of the increase in net position is related to tax revenues intended to pay principal on the District's bonded indebtedness, which is included in long-term liabilities in the government-wide financial statements. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Management's Discussion and Analysis (Continued) August 31, 2022

Summary of Changes in Net Position

	2022	2021
Revenues:		_
Property taxes	\$ 5,331,581	\$ 5,248,648
Charges for services	3,286,239	3,145,542
Other revenues	691,158	 660,404
Total revenues	9,308,978	 9,054,594
Expenses:		
Services	3,908,801	3,689,966
Conveyance of capital assets	488,463	-
Depreciation	912,014	685,659
Debt service	2,340,968	 2,148,454
Total expenses	7,650,246	 6,524,079
Change in net position	1,658,732	2,530,515
Net position, beginning of year	2,746,375	 215,860
Net position, end of year	\$ 4,405,107	\$ 2,746,375

Financial Analysis of the District's Funds

The District's combined fund balances as of the end of the fiscal year ended August 31, 2022, were \$21,915,996, an increase of \$7,077,903 from the prior year.

The general fund's fund balance increased by \$2,346,545, primarily due to property taxes and service revenues exceeding service operations expenditures, as well as a transfer from the capital projects fund.

The special revenue fund's fund balance remained the same, as all expenditures were billed to participants.

The debt service fund's fund balance decreased by \$397,988, primary due to bond principal and interest requirements and contracted services expenditures being greater than property taxes revenues.

The capital projects fund's fund balance increased by \$5,129,346, due to proceeds received from the Series 2021A bond sale.

Management's Discussion and Analysis (Continued) August 31, 2022

General Fund Budgetary Highlights

There were several differences between the final budgetary amounts and actual amounts. The major differences between budget and actual were due to property tax revenues being greater than anticipated and tap connection and inspection fees revenues and repairs and maintenance expenditures being less than anticipated. In addition, a reimbursement received from another governmental entity and a transfer received from the capital projects fund were not included in the budget. The fund balance as of August 31, 2022, was expected to be \$11,077,478 and the actual end-of-year fund balance was \$12,149,378.

Capital Assets and Related Debt

Capital Assets

Capital assets held by the District at the end of the current and previous fiscal years are summarized below:

Capital Assets (Net of Accumulated Depreciation)

11,905,612 427,156 8,653,094 13,500,228 34,486,090	463, 8,893, 13,949,	915 186 078
8,653,094 13,500,228	8,893, 13,949,	186 078
13,500,228	13,949,	078
34,486,090	35,211,	701
		191
er		
\$	3 14,9	980
ion 3	223,	072
\$	3 238,	052
	ion 3	\$ 14,9

Debt

The changes in the debt position of the District during the fiscal year ended August 31, 2022, are summarized as follows.

Management's Discussion and Analysis (Continued) August 31, 2022

Long-term debt payable, beginning of year	\$ 48,716,972
Increases in long-term debt	6,039,237
Decreases in long-term debt	 (1,449,123)
Long-term debt payable, end of year	\$ 53,307,086

A developer of the District has constructed facilities on behalf of the District under terms of a contract with the District. The District has agreed to reimburse the developer for these costs, plus interest, from the proceeds of future bond sales or available funds, to the extent approved by the Commission. At August 31, 2022, a liability for developer-constructed capital assets of \$601,854 was recorded in the government-wide financial statements.

At August 31, 2022, the District had \$13,560,000 of unlimited tax bonds authorized, but unissued, for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District.

The District's bonds carry underlying ratings of "BBB-" from Standard & Poor's or "A3" from Moody's Investors Service (Moody's). The Series 2015 refunding and 2018 refunding bonds carry a "AA" rating from Standard & Poor's by virtue of bond insurance issued by Assured Guaranty Municipal Corp. The Series 2016, 2019 and Series 2021 refunding bonds carry a "AA" rating from Standard & Poor's by virtue of bond insurance issued by Build America Mutual Assurance Company. The Series 2020 refunding and Series 2021A bonds carry a "AA" rating from Standard & Poor's and an "A1" rating from Moody's by virtue of bond insurance issued by Assured Guaranty Municipal Corporation.

Other Relevant Factors

Relationship to the City of Houston

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Houston (the City), the District must conform to the City ordinance consenting to the creation of the District. In addition, the District may be annexed by the City without the District's consent, except as set forth below.

Effective December 12, 2008, the District entered into a Strategic Partnership Agreement (the Agreement) with the City, which annexed certain portions of the District for "limited purposes," as described therein. Under the terms of the Agreement, the City has agreed it will not annex the District as a whole for full purposes for a period of 30 years from the date of the Agreement, at which time the City has the option to annex the District if it chooses to do so. On December 5, 2017, the Agreement was amended to annex an additional tract of land in the District. The Agreement was amended again on December 11, 2019, to provide options at the end of the original term for the City to negotiate a new agreement, allow the Agreement to lapse or to commence full-purpose annexation.

Notes to Financial Statements August 31, 2022

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Harris County Municipal Utility District No. 278 (the District), was created by an order of the Texas Water Commission, now known as the Texas Commission on Environmental Quality (the Commission), effective March 27, 1985, in accordance with the Texas Water Code, Chapter 54. The District operates in accordance with Chapters 49 and 54 of the Texas Water Code and is subject to the continuing supervision of the Commission. The principal functions of the District are to finance, construct, own and operate waterworks, wastewater and drainage facilities and to provide such facilities and services to the customers of the District.

The District is governed by a Board of Directors (the Board) consisting of five individuals who are residents or owners of property within the District and are elected by voters within the District. The Board sets the policies of the District. The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America for state and local governments, as defined by the Governmental Accounting Standards Board. The following is a summary of the significant accounting and reporting policies of the District:

Reporting Entity

The accompanying government-wide financial statements present the financial statements of the District. There are no component units that are legally separate entities for which the District is considered to be financially accountable. Accountability is defined as the District's substantive appointment of the voting majority of the component unit's governing board. Furthermore, to be financially accountable, the District must be able to impose its will upon the component unit or there must be a possibility that the component unit may provide specific financial benefits to, or impose specific financial burdens on, the District.

Government-wide and Fund Financial Statements

In accordance with required reporting standards, the District reports its financial activities as a special-purpose government. Special-purpose governments are governmental entities which engage in a single governmental program, such as the provision of water, wastewater, drainage and other related services. The financial statements of special-purpose governments combine two types of financial statements into one statement. These two types of financial statements are the government-wide financial statements and the fund financial statements. The fund financial statements are presented with a column for adjustments to convert to the government-wide financial statements.

The government-wide financial statements report information on all of the activities of the District. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities generally are financed through taxes, charges for services and intergovernmental revenues. The statement of activities reflects the revenues and expenses of the District.

Notes to Financial Statements August 31, 2022

The fund financial statements provide information about the District's governmental funds. Separate statements for each governmental fund are presented. The emphasis of fund financial statements is directed to specific activities of the District.

The District presents the following major governmental funds:

General Fund – The general fund is the primary operating fund of the District which accounts for all financial resources not accounted for in another fund. Revenues are derived primarily from property taxes, charges for services and interest income.

Special Revenue Fund – Accounts for revenues and expenditures involving specific revenue sources that are legally restricted to expenditures for specified purposes. The primary source of revenue is participant fees.

Debt Service Fund – The debt service fund is used to account for financial resources that are restricted, committed or assigned to expenditures for principal and interest related costs, as well as the financial resources being accumulated for future debt service.

Capital Projects Fund – The capital projects fund is used to account for financial resources that are restricted, committed or assigned to expenditures for capital outlays.

Fund Balances - Governmental Funds

The fund balances for the District's governmental funds can be displayed in up to five components:

Nonspendable – Amounts that are not in a spendable form or are required to be maintained intact.

Restricted – Amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed – Amounts that can be used only for the specific purposes determined by resolution of the Board. Commitments may be changed or lifted only by issuance of a resolution by the District's Board.

Assigned – Amounts intended to be used by the District for specific purposes as determined by management. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned – The residual classification for the general fund and includes all amounts not contained in the other classifications.

Notes to Financial Statements August 31, 2022

The District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District applies committed amounts first, followed by assigned amounts, and then unassigned amounts when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Measurement Focus and Basis of Accounting

Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

Nonexchange transactions, in which the District receives (or gives) value without directly giving (or receiving) equal value in exchange, include property taxes and donations. Recognition standards are based on the characteristics and classes of nonexchange transactions. Revenues from property taxes are recognized in the period for which the taxes are levied. Intergovernmental revenues are recognized as revenues, net of estimated refunds and uncollectible amounts, in the accounting period when an enforceable legal claim to the assets arises and the use of resources is required or is first permitted. Donations are recognized as revenues, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met. Amounts received before all eligibility requirements have been met are reported as liabilities.

Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and liabilities are generally included on the balance sheet. The statement of governmental funds revenues, expenditures and changes in fund balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in spendable resources. General capital asset acquisitions are reported as expenditures and proceeds of long-term debt are reported as other financing sources. Under the modified accrual basis of accounting, revenues are recognized when both measurable and available. The District considers revenues reported in the governmental funds to be available if they are collectible within 60 days after year-end. Principal revenue sources considered susceptible to accrual include taxes, charges for services and investment income. Other revenues are considered to be measurable and available only when cash is received by the District. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, which are recognized as expenditures when payment is due.

Notes to Financial Statements August 31, 2022

Deferred Outflows and Inflows of Resources

A deferred outflow of resources is a consumption of net position that is applicable to a future reporting period and a deferred inflow of resources is an acquisition of net position that is applicable to a future reporting period.

Interfund Transactions

Transfers from one fund to another fund are reported as interfund receivables and payables if there is intent to repay the amount and if there is the ability to repay the advance on a timely basis. Transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Pension Costs

The District does not participate in a pension plan and, therefore, has no pension costs.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Investments and Investment Income

Investments in certificates of deposit, mutual funds, U.S. Government and agency securities, and certain pooled funds, which have a remaining maturity of one year or less at the date of purchase, are recorded at amortized cost. All other investments are carried at fair value. Fair value is determined using quoted market values.

Investment income includes dividends and interest income and the net change for the year in the fair value of investments carried at fair value. Investment income is credited to the fund in which the investment is recorded.

Property Taxes

An appraisal district annually prepares appraisal records listing all property within the District and the appraised value of each parcel or item as of January 1. Additionally, on January 1, a tax lien attaches to property to secure the payment of all taxes, penalty and interest ultimately imposed for the year on the property. After the District receives its certified appraisal roll from the appraisal

Notes to Financial Statements August 31, 2022

district, the rate of taxation is set by the Board of the District based upon the aggregate appraisal value. Taxes are due and payable October 1 or when billed, whichever is later, and become delinquent after January 31 of the following year.

In the governmental funds, property taxes are initially recorded as receivables and deferred inflows of resources at the time the tax levy is billed. Revenues recognized during the fiscal year ended August 31, 2022, include collections during the current period or within 60 days of year-end related to the 2021 and prior years' tax levies.

In the government-wide statement of net position, property taxes are considered earned in the budget year for which they are levied. For the District's fiscal year ended August 31, 2022, the 2021 tax levy is considered earned during the current fiscal year. In addition to property taxes levied, any delinquent taxes are recorded net of amounts considered uncollectible.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an individual cost of \$5,000 or more and an estimated useful life of two years or more. Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over their estimated useful lives as follows:

	Years
Water production and distribution facilities	10-45
Wastewater collection and treatment facilities	10-45

Deferred Amount on Debt Refundings

In the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the old debt in a debt refunding is deferred and amortized to interest expense using the effective interest rate method over the remaining life of the old debt or the life of the new debt, whichever is shorter. Such amounts are classified as deferred outflows or inflows of resources.

Notes to Financial Statements August 31, 2022

Debt Issuance Costs

Debt issuance costs, other than prepaid insurance, do not meet the definition of an asset or deferred outflows of resources since the costs are not applicable to a future period and, therefore, are recognized as an expense/expenditure in the period incurred.

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Premiums and discounts on bonds are recognized as a component of long-term liabilities and amortized over the life of the related debt using the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize premiums and discounts on bonds during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position/Fund Balances

Fund balances and net position are reported as restricted when constraints placed on them are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or are imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, generally, it is the District's policy to use restricted resources first.

Reconciliation of Government-wide and Fund Financial Statements

Amounts reported for net position of governmental activities in the statement of net position and fund balances in the governmental funds balance sheet are different because:

Capital assets used in governmental activities are not financial resources and are not reported in the funds.	\$ 34,486,090
Property tax revenue recognition and the related reduction of deferred inflows of resources are subject to availability of funds in the fund	70.166
financial statements.	78,166
Penalty and interest on delinquent taxes is not receivable in the current	
period and is not reported in the funds.	39,133

Notes to Financial Statements August 31, 2022

Deferred amount on debt refundings for governmental activities are not financial resources and are not reported in the funds.	\$ 1,192,808
Long-term debt obligations are not due and payable in the current period and are not reported in the funds.	(53,307,086)
Adjustment to fund balances to arrive at net position.	\$ (17,510,889)
Amounts reported for change in net position of governmental activities in the stare different from change in fund balances in the governmental funds statement expenditures and changes in fund balances because:	
Change in fund balances.	\$ 7,077,903
Governmental funds report capital outlays as expenditures. However, for government-wide financial statements, the cost of capitalized assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense, conveyance of capital assets and noncapitalized costs exceeded capital outlay expenditures in the current period.	(1,277,555)
Governmental funds report the effect of premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.	117,617
Governmental funds report proceeds from the sales of bonds because they provide current financial resources to governmental funds. Principal payments on debt are recorded as expenditures. None of these transactions, however, have any effect on net position.	(4,150,000)
Revenues collected in the current year, which have previously been reported in the statement of activities, are reported as revenues in the governmental funds.	(5,547)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(103,686)
Change in net position of governmental activities.	\$ 1,658,732

Notes to Financial Statements August 31, 2022

Note 2: Deposits, Investments and Investment Income

Deposits

Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. The District's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; a surety bond; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Texas; or certain collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.

At August 31, 2022, none of the District's bank balances were exposed to custodial credit risk.

Investments

The District may legally invest in obligations of the United States or its agencies and instrumentalities, direct obligations of Texas or its agencies or instrumentalities, collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States, other obligations guaranteed as to principal and interest by the State of Texas or the United States or their agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, obligations of states, agencies and counties and other political subdivisions with an investment rating not less than "A," insured or collateralized certificates of deposit, and certain bankers' acceptances, repurchase agreements, mutual funds, commercial paper, guaranteed investment contracts and investment pools.

The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in Texas CLASS, an external investment pool that is not registered with the Securities and Exchange Commission. A Board of Trustees, elected by the participants, has oversight of Texas CLASS. The District's investments may be redeemed at any time. Texas CLASS attempts to minimize its exposure to market and credit risk through the use of various strategies and credit monitoring techniques and limits its investments in any issuer to the top two ratings issued by nationally recognized statistical rating organizations.

At August 31, 2022, the District had the following investments and maturities.

Notes to Financial Statements August 31, 2022

Maturities in Years

_		Less Than			0.40	More Than
Туре	Fair Value	1	1-5		6-10	10
Texas CLASS	\$ 17,886,014	\$ 17,886,014	\$	0 \$	0	\$ 0

Interest Rate Risk. As a means of limiting exposure to fair value losses arising from rises in interest rates, the District's investment policy does not allow investments in certain mortgage-backed securities, collateralized mortgage obligations with a final maturity date in excess of 10 year and interest rate indexed collateralized mortgage obligations. The external investment pool is presented in an investment with a maturity of less than one year because it is redeemable in full immediately.

Credit Risk. Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At August 31, 2022, the District's investments in Texas CLASS were rated "AAAm" by Standard & Poor's.

Summary of Carrying Values

The carrying values of deposits and investments shown previously are included in the balance sheet at August 31, 2022, as follows:

Carrying value: Deposits Investments	\$ 5,228,295 17,886,014
Total	\$ 23,114,309
Included in the following statement of net position captions:	
Cash Certificates of deposit Short-term investments	\$ 843,295 4,385,000 17,886,014
Total	\$ 23,114,309

Investment Income

Investment income of \$130,688 for the year ended August 31, 2022, consisted of interest income.

Notes to Financial Statements August 31, 2022

Fair Value Measurements

The District has the following recurring fair value measurements as of August 31, 2022:

• Pooled investments of \$17,886,014 are valued at fair value per share of the pool's underlying portfolio.

Note 3: Capital Assets

A summary of changes in capital assets for the year ended August 31, 2022, is presented below:

	Balances, eginning	_				E	Balances, End

Annual Debt Service Requirements

The District has been paying the amount due September 1 within the fiscal year preceding this due date, and the following schedule has been prepared assuming that this practice will be followed in future years. The schedule shows the annual debt service requirements to pay principal and interest on general obligation bonds outstanding at August 31, 2022.

Year	ļ	Principal		Interest	Total
2023	\$	1,525,000	\$	1,887,038	\$ 3,412,038
2024		1,600,000		1,827,913	3,427,913
2025		1,655,000		1,768,612	3,423,612
2026		1,705,000		1,707,263	3,412,263
2027		1,755,000		1,655,950	3,410,950
2028-2032		9,690,000		7,397,725	17,087,725
2033-2037		12,025,000		5,414,218	17,439,218
2038-2042		10,495,000		3,295,507	13,790,507
2043-2047		12,765,000		1,145,845	13,910,845
Total	\$	53,215,000	\$	26,100,071	\$ 79,315,071

Notes to Financial Statements August 31, 2022

The bonds are payable from the proceeds of an ad valorem tax levied upon all property within the District subject to taxation, without limitation as to rate or amount.

Voter-authorized bonds voted	\$ 80,400,000
Bonds sold	66,840,000
Voter-authorized refunding bonds voted	80,400,000
Refunding bond authorization used	2,583,867*

^{*}The District has issued \$46,790,000 of refunding bonds; however, of such amount, \$2,583,867 has been applied to the voter-authorized bonds and the remaining \$44,206,133 has been issued pursuant to Chapter 1207 of the Texas Government Code.

Due to Developer

A developer of the District has constructed facilities on behalf of the District under terms of a contract with the District. The District has agreed to reimburse the developer for these costs, plus interest, from the proceeds of future bond sales or available funds, to the extent approved by the Commission. The District's engineer estimates reimbursable costs for completed projects are \$601,854. This amount has been recorded in the financial statements as long-term liabilities.

Note 5: Significant Bond Resolution and Commission Requirements

- A. The Bond Resolutions require that the District levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due. During the year ended August 31, 2022, the District levied an ad valorem debt service tax at the rate of \$0.4500 per \$100 of assessed valuation, which resulted in a tax levy of \$3,003,871 on the taxable valuation of \$667,526,896 for the 2021 tax year. The interest and principal requirements paid from the tax revenues and available resources were \$3,362,775.
- B. During the current year, the District transferred \$53,752 from the capital projects fund to the general fund. The transfer was in accordance with the rules of the Commission.

Note 6: Maintenance Taxes

At an election held May 1, 1993, voters authorized a maintenance tax not to exceed \$1.00 per \$100 of assessed valuation on all property within the District subject to taxation. During the year ended August 31, 2022, the District levied an ad valorem maintenance tax at the rate of \$0.3500 per \$100 of assessed valuation, which resulted in a tax levy of \$2,336,344 on the taxable valuation of \$667,526,896 for the 2021 tax year. The maintenance tax is being used by the general fund to pay expenditures of operating the District.

Notes to Financial Statements August 31, 2022

Note 7: Wastewater Treatment Plant Lease

On November 11, 2015, the District entered into a lease of digester basins, chlorine basin and associated equipment. The lease term is for 60 months with monthly payments of \$12,625 upon substantial completion of the installation, which occurred in December 2016. After the initial term, which concluded in the current year, the lease continues on a month-to-month basis with monthly payments of \$8,975. During the current year, the District incurred fees of \$125,950 related to the lease.

Note 8: Strategic Partnership Agreement

Effective December 12, 2008, the District and the City of Houston (the City) entered into a Strategic Partnership Agreement (the Agreement) under which the City annexed a tract of land (the tract) within the boundaries of the District for limited purposes. The District continues to exercise all powers and functions of a municipal utility district as provided by law. As consideration for the District providing services as detailed in the Agreement, the City agrees to remit one-half of all City sales and use tax revenues generated within the boundaries of the tract. As consideration for the sales and use tax payments by the City, the District agrees to continue to provide and develop water, sewer and drainage services within the District in lieu of full-purpose annexation. The City agrees it will not annex the District for full purposes or commence any action to annex the District during the term of the Agreement, which is 30 years. On December 5, 2017, the Agreement was amended to annex an additional tract of land in the District. The Agreement was amended again on December 11, 2019, to provide options at the end of the original term for the City to negotiate a new agreement, allow the Agreement to lapse or to commence full-purpose annexation. During the current year, the District recorded \$118,273 in revenues related to the Agreement.

Note 9: Sanitary Sewage Treatment and Disposal Agreement With Harris County

Effective January 8, 2013, and as amended December 5, 2017, the District entered into a 15-year agreement with Harris County to provide capacity to treat wastewater from Harris County at the District's wastewater treatment plant No. 3. Harris County must pay a monthly service fee. Fixed operating costs are shared based on allocated capacity. Variable operating costs are shared based on total amount of waste delivered to the plant by Harris County as a percentage of total waste delivered. Harris County has paid the District a security deposit of \$53,417 as a plant operating reserve.

For the year ended August 31, 2022, the District billed Harris County and the District \$169,932 and \$484,212, respectively.

Notes to Financial Statements August 31, 2022

Note 10: Water Supply Agreement with the City of Houston

The District has entered into a Groundwater Reduction Plan Wholesale Agreement with the City, whereby the City will sell and deliver treated water to the District at the rate set by ordinance by the City for contract-treated customers. As of August 31, 2022, the rate was \$3.91 per thousand gallons, plus \$0.950 per thousand gallons over the minimum requirement. The District paid \$432,987 for purchased water during the fiscal year ended August 31, 2022.

Note 11: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts in the past three fiscal years.

Notes to Required Supplementary Information August 31, 2022

Budgets and Budgetary Accounting

Annual operating budgets are prepared for the general and special revenue funds by the District's consultants. The budgets reflect resources expected to be received during the year and expenditures expected to be incurred. The Board of Directors is required to adopt the budgets prior to the start of its fiscal year. The budgets are not a spending limitation (a legally restricted appropriation). The original budgets for the general fund and the special revenue fund were not amended during fiscal 2022.

The District prepares its annual operating budgets on a basis consistent with accounting principles generally accepted in the United States of America. The Budgetary Comparison Schedules – General Fund and Special Revenue Fund present the original and revised budget amounts, if revised, compared to the actual amounts of revenues and expenditures for the current year.
